Tiger Drill

Tiger Drill PVC

Designed to make fast work of pipe cleaning whether it is tree roots, scale and calcium build-up, concrete and lead, soft blockages failed gaskets, or pipe imperfections.

A good all-around cleaning option and are often referred to as the starter chain because they are adjustable. This allows you to make minor adjustments to the chain size to compensate for reduced pipe interior for initial cleaning of blocked pipes and then readjust them to their optimal diameter.

USES AND BENEFITS

Available in 7 versions:

- **PVC:** No carbides. General cleaning chain to restore flow quickly and safely or to remove light material in fragile pipes such as plastic, copper & clay.
- **Standard:** Star carbide (3-ridge). An efficient general cleaning chain for concrete and cast iron pipes.
- **Tiger:** Fits in between the Standard & Premium. Extra-hard, very long lasting carbide teeth and a lighter chain material create a gentle but extremely durable option for cleaning cast iron pipes.
- **Tiger Drill Chain:** Features an integrated front Tiger Drill Head along with extra-hard, very long lasting carbide teeth of the Tiger Chain.
- **Tiger Drill Chain PVC:** An integrated front drill head with long lasting carbides and a non-carbide body to efficiently and safely cut through roots, scale and blockages in PVC and fragile pipes.
- **Premium:** Larger and heavier U carbide (7-ridge) makes it stronger and faster than any other chain on the market. For tough descaling, hard deposits and removing residual concrete or failed liner in cast iron pipes.
- **Tornado:** Maxi Power+ exclusive. Features highly aggressive teeth for descaling, concrete removal, heavy tuberculate & debris in larger diameter pipes.

Technical Specifications

Versions	PVC
	Standard
	Tiger
	Tiger Drill
	Tiger Drill PVC
	Premium
	Tornado
Shaft Sizes	6mm (1/4")
	8mm (1/3")
	10mm (3/8")
	12mm (1/2")
	18mm (3/4")
Pipe Sizes	DN32-300 (1¼-12")
